CTC Supports the Sophia Foundation for Children

With the aim of helping children in Cyprus through the Sophia Foundation for Children, the Cyprus Trading Corporation Plc (CTC) Group of Companies recently organised a charity bicycle ride in Limassol. Almost 80 members of staff from all over Cyprus took part, led by Executive Chairman and CEO Marios Shacolas.

The pleasant 28- kilometre ride took the cyclists from the Limassol seafront promenade to Ancient Curium. Through sponsorship from colleagues, associates, friends and family, they raised a total €7,000, an amount that was matched by CTC so that a total of €14,000 was donated to the Sophia Foundation for Children.

Over and above its activities in Kenya, the Foundation has also supported children in Cyprus since 2013 through its “I cook and I offer” programme, which provides a daily school meal to pupils in 16 all-day primary schools.

In addition to its charitable purpose, the bicycle ride was also an opportunity to take photographs to be used in the CTC Group’s 2018 calendar, which will once again show its Human Resources in action.

The event, which ended with a meal, gave the CTC staff members who took part in the ride a chance to share a pleasant day outside the workplace.
